Maidstone
Kent, ME15 6RJ

The Diablo has everything of a well styled sports scooter which is built to specifications that far surpass its price tag. Modern Italian style looks, and a racy 6.5Kw EFI overhead cam power plant which is the most powerful of the all the Lexmoto scooter range. The front and rear combined disc brakes and jolt soaking suspension allow nimble handling around the twists. An easy read digital display combines flair and practicality and the striking LED headlight unit warns others of your impending arrival.
